## Poquoson Lions Club Membership Plan, 2014-2015

### Membership Focus

The Poquoson Lions Club will start the 2014-15 Lions year with 43 active and 9 At-Large Members. The Club's focus for next year will be to retain current club members while striving to increase membership. The Club President has set a goal of four new members. The Membership Chairman will remind Club members of the need to "get the word out" and recruit at each meeting, and encourage members to bring guests to all of our meetings.

### New Initiatives

We will supply the Poquoson Community Relations and Events Office with an information letter on the club. This information letter or flyer will be included in the city's welcome packet to new members to the community. It will also be mailed to individuals listed in the real estate transactions portion of the Daily Press newspaper. The intent is to make new city members aware of the club and what we do for the community. Additionally, we will re-accomplish business cards and a Poquoson Lions Club tri-fold advertisement to be used during White Cane Day, the Broom Sales and other opportunities where we can provide information to potential new members. The President has set a goal of re-activating at least one of our current Members-At-Large next year.

### Formal Induction

Each prospective member will be presented with a New Member Kit that will also contain a copy of the current Constitution and By-Laws, Club Directory, and an explanation of the mission of the Club and Lions International. Each new member will be formally inducted, and presented with a Lapel pin, and immediately assigned to an active committee. The Membership Chair and sponsor will coordinate and schedule an induction ceremony for each new member. New members will be paired with their sponsors for committee assignments to ensure the proper "care and feeding" so that they always feel part of the team.

### Zero Drop policy

The Poquoson Lions Club will have a "Zero Drop" goal during the year to ensure that no Lion's are lost, except through deaths or transfers. The Membership Chair will coordinate with the Lion Secretary and ensure that members not attending regularly are notified and personally invited to the next meeting.

### Entertaining Meetings

The Club President will do all in his power and his imagination to make the club meetings fun and entertaining. The four components of Lions will be at the forefront of the programs provided by the 1<sup>st</sup> Vice President; sight, hearing, Diabetes and youth. Traditions of the club will be maintained while looking to create new ones to better attract and maintain membership.
